

### SUMMARY REPORT

Balaji Institute of Technology & Science started in the year 2001, and it provides quality education to the students so as to enable them to take up the challenges of the tomorrow. The Cultural Club of this college is not only the largest club of the College but also the only club that involves every student. As the name suggests, one of the primary aims of the Cultural Club is to help students keep in touch with the rich cultural values, customs and traditions of our country. The Cultural Club aims at molding the personality of students and exposes them to a wide range of cultural events throughout the year. Apart from participating in a multitude of events, the students also get a firsthand experience of organizing and managing the events, and of course, it caters to the creative needs of the students.
